# Getting your test results

# About this easy read booklet

This booklet is about getting your test results.

You can learn about the different ways you may get your results.

If you are worried about your health, you should talk to a doctor or nurse.

Sometimes when you have a test, you will get the results on the same day.

With other tests you may have to wait for the results from your doctor.

Waiting for test results can be a worrying time.

If you feel worried it is important to talk to someone about how you feel.

You may be asked to come back to see the doctor for the results of your tests.

The doctor will explain your test results to you. It is a good idea to have someone with you. This could be a family member, a friend or someone else who supports you.

The doctor may tell you that you don't have cancer.

This is very good news but you may still feel worried.

If you do have cancer, there are lots of treatments and people that can help you.

If you are still worried after getting your results you should talk to someone about how you feel.

# How Macmillan can help you
