What is cancer?

About this easy read booklet

This booklet is about what cancer is.

You can learn about how cancer changes the cells in your body.

If you are worried about your health, you should talk to a doctor or nurse.

What is cancer?

Your body is made up of lots of tiny pieces called cells.

Sometimes these cells can go wrong.

One cell can go wrong which can make other cells go wrong. These cells can turn into a lump. This is called a tumour.

Some tumours are **benign**. These do not usually cause harm and they are not cancer.

Other tumours are **malignant**. These grow and can spread to different parts of the body. This is cancer.

Your blood is also made of cells. When blood cells go wrong, they do not form a lump. But they can build up in the blood. This is also cancer.

Cancer may make you feel unwell. Our booklet **Signs of cancer** tells you more about how cancer may make you feel.

Look for any changes in your body that are different from usual.

It is important to tell your doctor about any changes or worries you have as soon as possible.

Some people might not feel ill before the cancer is found. It is important to go for any health checks you are offered. This can include **screening**.

Screenings are tests that look for very early signs of cancer. You have screenings even if you feel well.

Cancer can then be treated or stopped before it causes problems.

You cannot get cancer from someone else. And you cannot give it to anyone.

Most of the time, we do not know why a person gets cancer.

But you may be less likely to get cancer if you live a healthy life.

This means eating a healthy diet, doing exercise, not smoking and not drinking too much alcohol. You can learn more about staying healthy from our other booklets.

Cancer is a serious illness. But there are treatments that may help. You can learn more about these treatments from our other booklets.

If you want to talk about cancer, your doctor or nurse can help. They can answer your questions and help with any worries you have.

You can also talk to Macmillan about cancer. You can call us free on 0808 808 00 00, 7 days a week from 8am to 8pm.

How Macmillan can help you

You can get support from:

- The Macmillan Support Line. Call **0808 808 00 00** 7 days a week, 8am to 8pm.

- The Macmillan website. Visit macmillan.org.uk for lots of information about cancer and living with cancer.

- Information centres. At an information centre, you can talk to a cancer support specialist and get written information.

Find your nearest centre at [macmillan.org.uk/informationcentres](https://www.macmillan.org.uk/informationcentres) or call us. Your hospital might have a centre.

- Local support groups. Find a group near you at [macmillan.org.uk/supportgroups](https://www.macmillan.org.uk/supportgroups) or call us.

- The Macmillan Online Community. You can talk to other people in similar situations at [macmillan.org.uk/community](https://www.macmillan.org.uk/community)

More easy read booklets

Order more easy read booklets from macmillan.org.uk/easyread
