The end of life

About this easy read booklet

This booklet is about the end of life.

You can learn about what may happen in the last few days of life

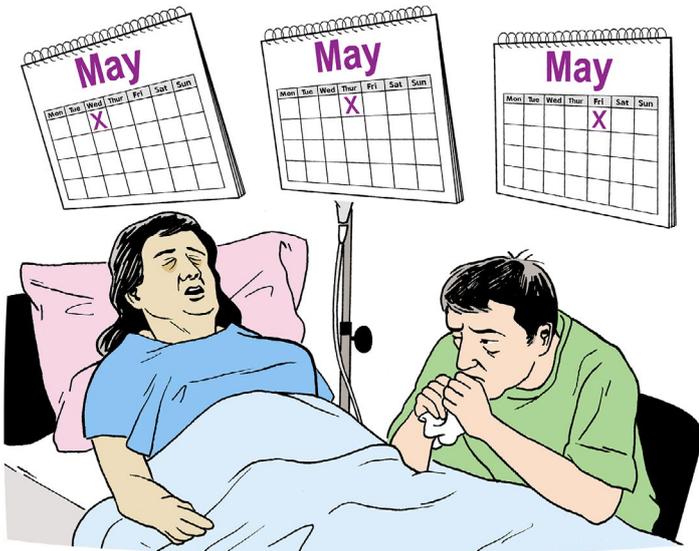

If you are worried about your health, you should talk to a doctor or nurse.

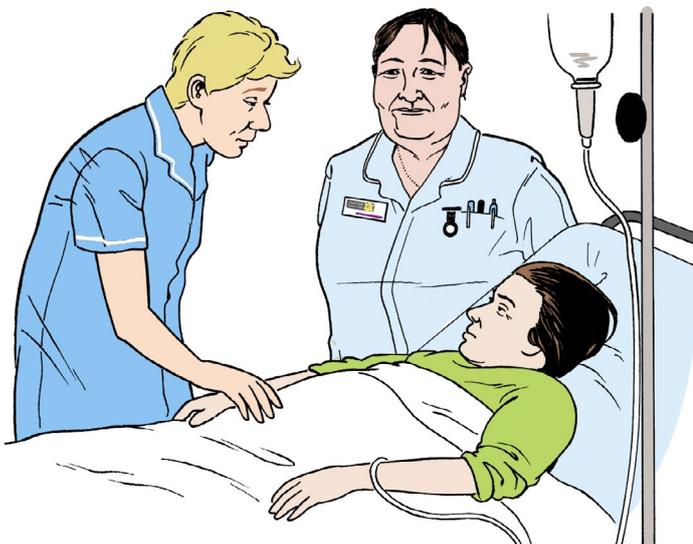

The end of life

You can read this booklet if you want to know what happens at the end of life.

When someone is dying, there are certain things that happen to them in the last few days of life.

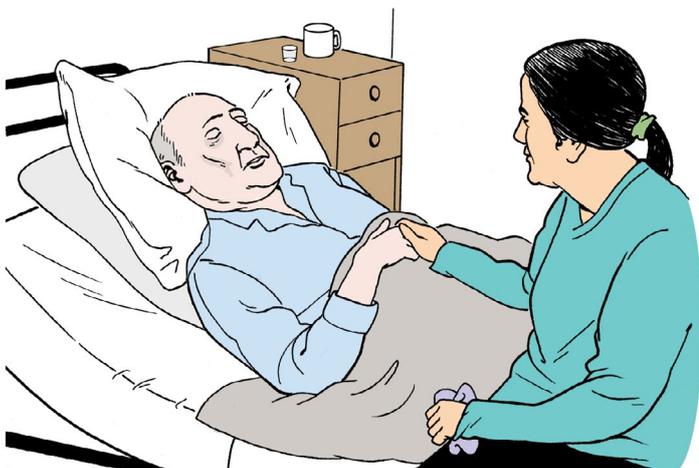

There are special nurses and doctors who will look after you. They will give you any medicines you need. You can talk to the nurses or doctors about any worries you may have.

You may feel very tired and weak and want to sleep all the time. You will probably be in bed all the time and may not be able to move around much.

You can ask someone to sit with you, even if you just want to lie still or sleep.

You might want them to just be there to hold your hand or sit with you even if you do not want to talk.

You might not want to eat or drink anything anymore.

You might feel confused and not know who your family are or the people around you. You may feel like you are in a dream.

You may feel like you are slowly going into a deep sleep. You can still hear people if they are talking to you. But you probably will not be able to talk to them.

For most people their last moments of life are very peaceful. Their breathing gets slower and then stops.

After you have died your family and friends will be sad. But they will have different happy memories to remember you by.

They will always remember you.
