Exercise

About this easy read booklet

This booklet is about exercise.

You can learn about how to keep healthy by exercising.

If you are worried about your health, you should talk to a doctor or nurse.

Exercise

You can make changes to your life that may make you less likely to get cancer.

You can do things to keep yourself healthy. Exercise is one of these things.

If you are overweight, your risk of getting cancer is higher.

You may need to eat less or change what you eat. You can read more about healthy eating in our booklet **Eat a healthy diet**.

It is important to exercise to keep your body healthy.

Any activity which helps you move your body is good for you. Here are some good things to do:

- walking

- swimming

- cycling

- gardening

- yoga

If you are finding it hard to exercise, there are people who can help. For example:

- a fitness instructor

This is someone who helps you learn how to exercise. They usually work in a gym or sports centre.

- a physiotherapist

This is someone who helps you exercise after an illness or an injury. They usually work in a hospital or health centre.

Your doctor can tell you about people who can help. Talk to your doctor if you need any more support with exercise.

How Macmillan can help you

You can get support from:

- The Macmillan Support Line. Call **0808 808 00 00** 7 days a week, 8am to 8pm.

- The Macmillan website. Visit [macmillan.org.uk](https://www.macmillan.org.uk) for lots of information about cancer and living with cancer.

- Information centres. At an information centre, you can talk to a cancer support specialist and get written information.

Find your nearest centre at macmillan.org.uk/informationcentres or call us. Your hospital might have a centre.

- Local support groups. Find a group near you at macmillan.org.uk/supportgroups or call us.

- The Macmillan Online Community. You can talk to other people in similar situations at macmillan.org.uk/community
