# Stop smoking

# About this easy read booklet

This booklet is about smoking.

You can learn how to be healthier by smoking less or not at all.

If you are worried about your health, you should talk to a doctor or nurse.

# Stop smoking

You can make changes to your life that may make you less likely to get cancer.

You can do things to keep yourself healthy. Stopping smoking is one of these things.

Smoking is the biggest cause of cancer in the world.

Smoking can also lead to other health problems. Your doctor can talk to you about what smoking does to your body.

To lower your risk of getting cancer, you could:

- Try to smoke less

- Not smoke at all

- Try to stay away from smoky places.

It is also bad for your health to be in places where other people are smoking.

There are a lot of good things about giving up smoking:

- Your body will feel better

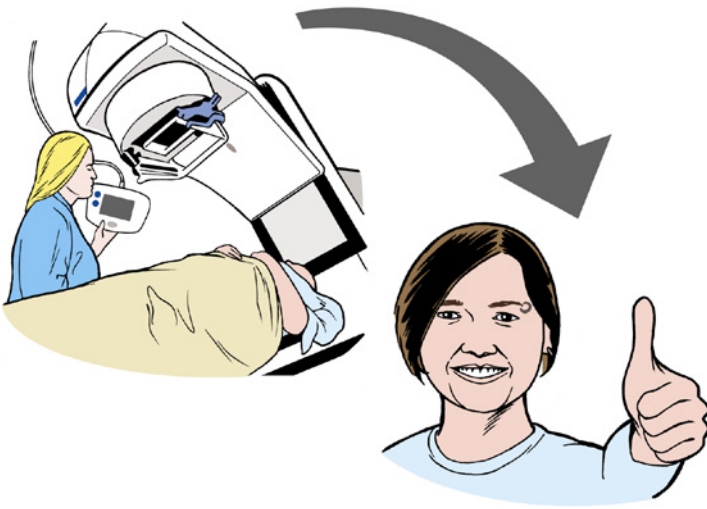

- It will be easier to breathe

- You might also feel better in other ways, like having more energy

- You will have more money because you will not need to buy cigarettes

- If you have cancer, your treatment might work better.

Stopping smoking can be hard. There are stop smoking services that can help. Talk to your doctor if you want to go to a stop smoking service.

At a stop smoking service you can:

- Get advice on how to stop smoking

- Get medicines to help you stop wanting to smoke

- Talk to other people who are trying to stop smoking. You can support each other.

# How Macmillan can help you

You can get support from:
